

October 18, 2021

Hello,

Thank you for the opportunity to respond to the feedback we received on Map P and make additional improvements that we identified after looking at other submitted maps. We have collaborated with Placer County residents across multiple districts and would like to formally submit Map P1 as an improved version of the original Map P discussed last week.

The data included in this submission is more granular because it is designed at the level of individual Census blocks instead of Census tracts. This has allowed Map P1 to get to a point of **2.63%** deviation from the largest population district to the smallest population district. Final totals appear below and are available in this complete data spreadsheet (<https://bit.ly/3FXoenK>).

	P1 Totals	Difference from Parity
1	82,109	1,048
2	81,217	156
3	80,662	-399
4	81,344	283
5	79,974	-1,087

**405,306**

Maximum	Minimum	Total Difference	%
82,109	79,974	2,135	2.63%

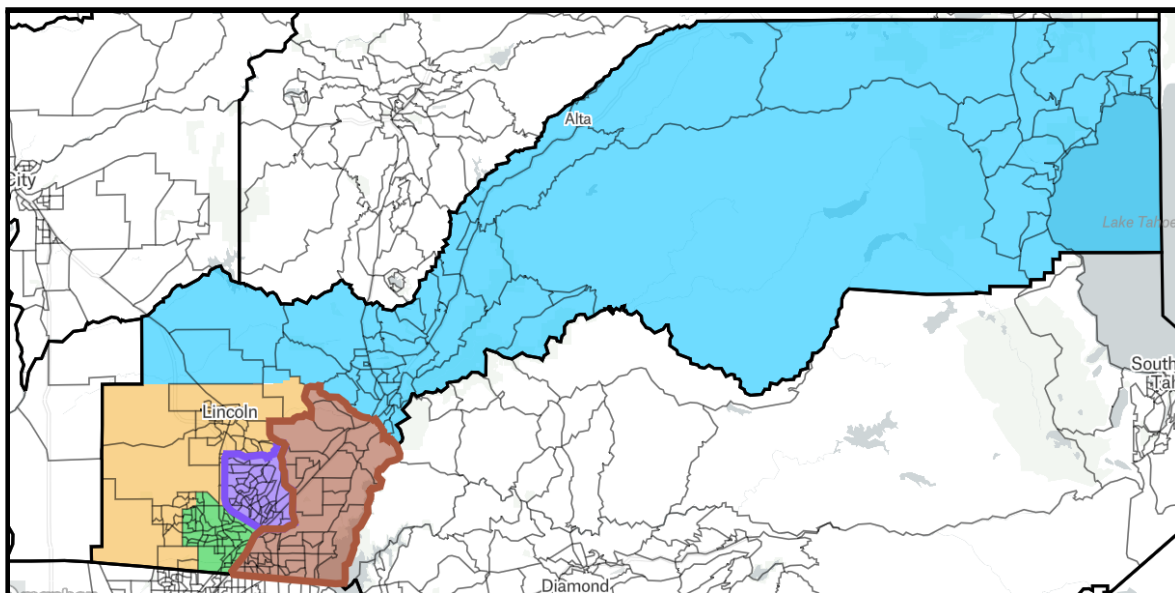

Parity = 81,061

Below is a high level view of Map P1, followed by snapshots of each district.

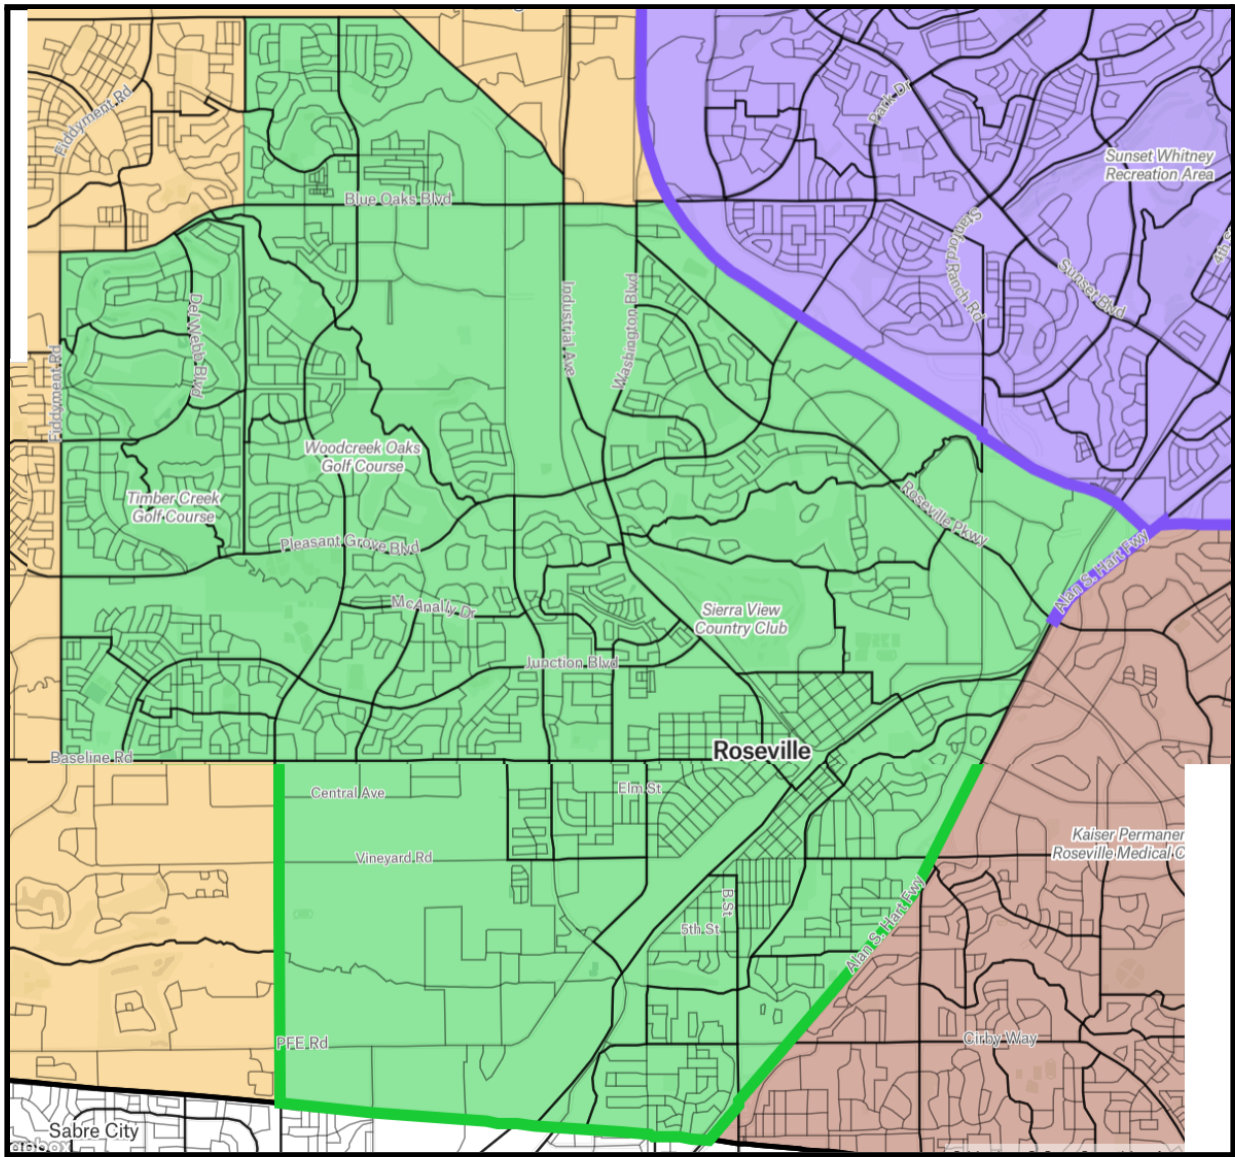

Please let us know if you have any additional questions.

Thank you,

The Map P for Placer County Community Team

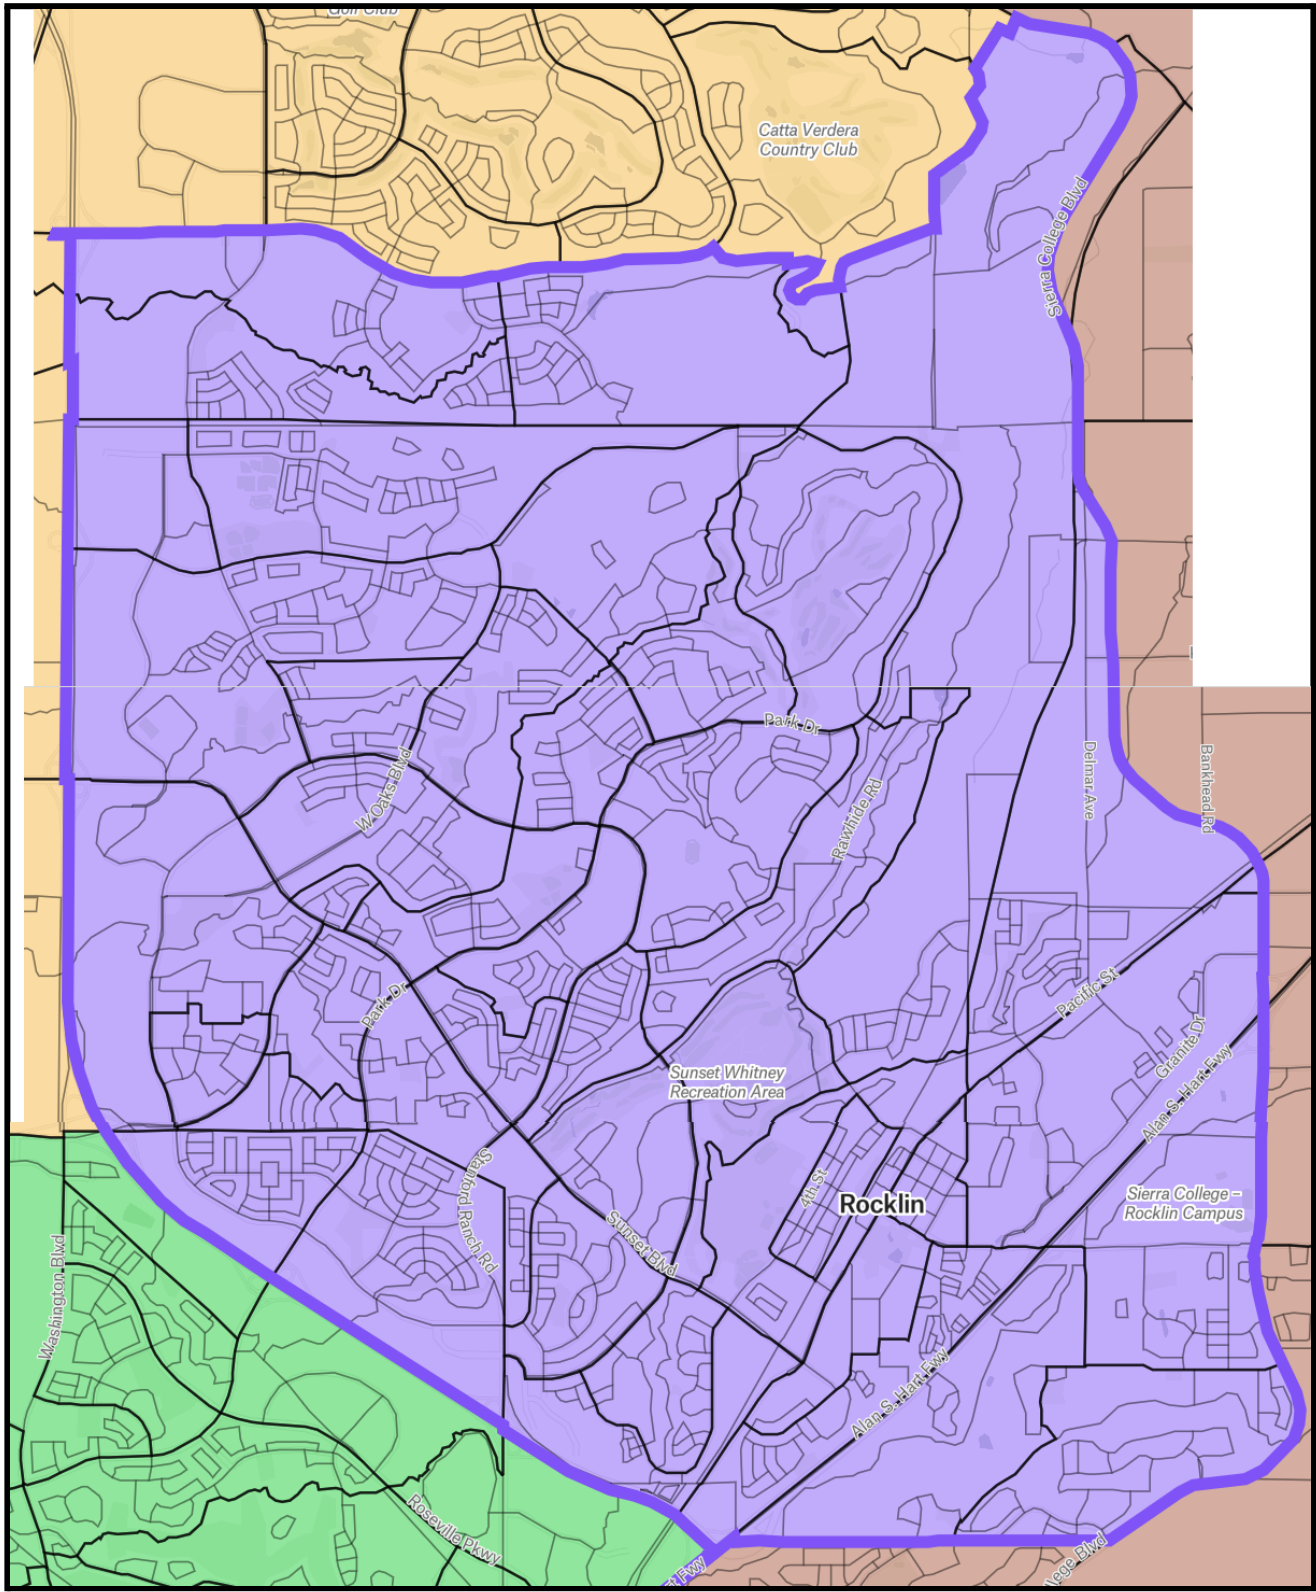

District 1 (Green)

### District 2 (Yellow)

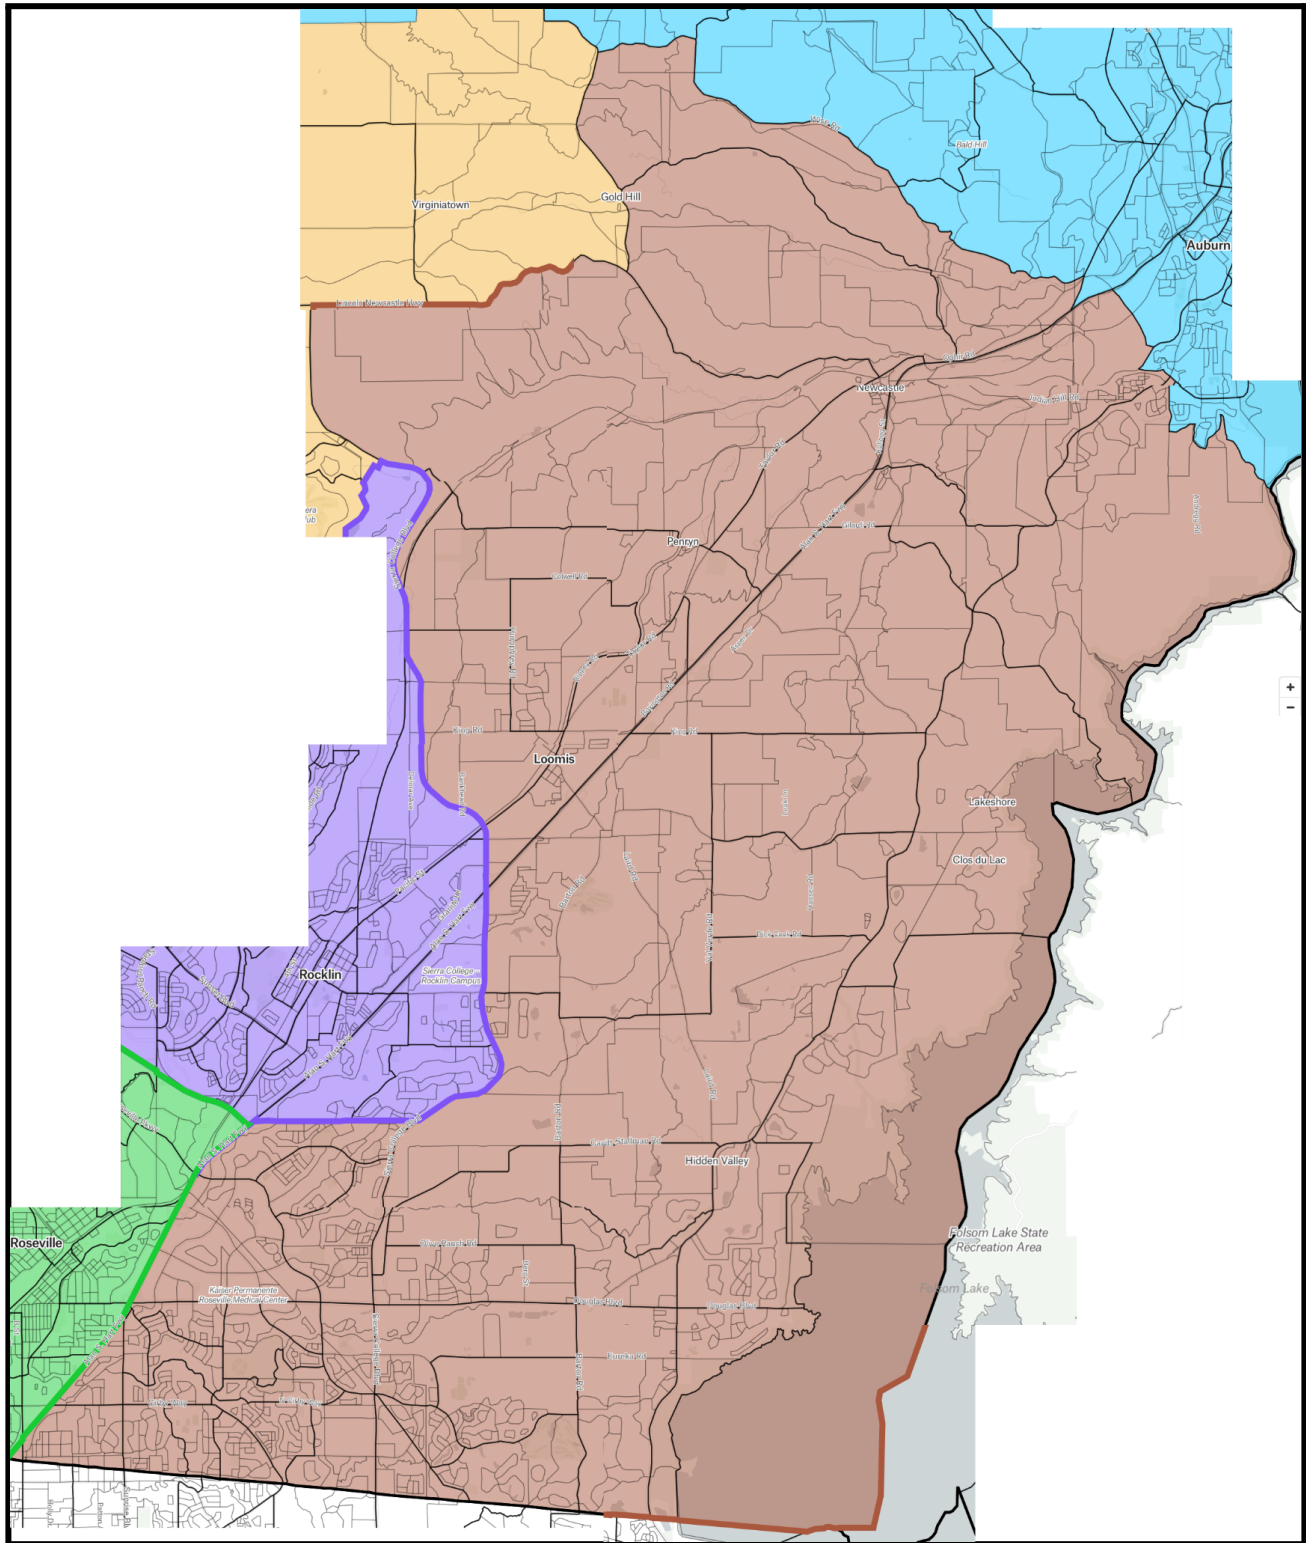

District 3 (Purple)

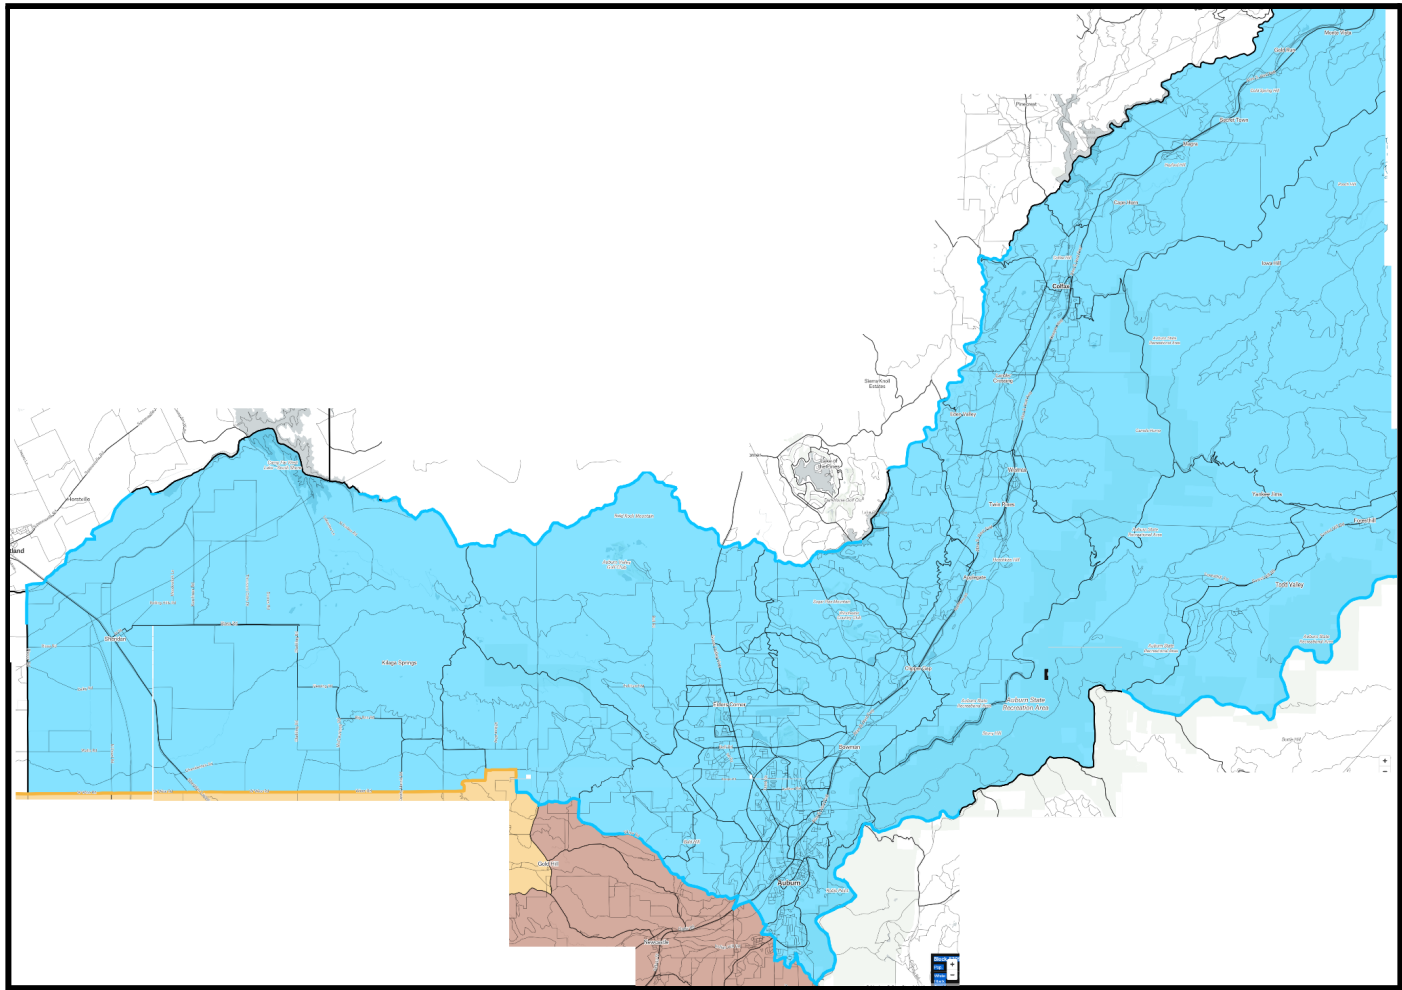

District 4

District 5 (Partial View - continues east to Tahoe)

Map P1 has the following specific improvements from feedback at last week's meeting and further discussion with community members.

- **Improved Boundaries for Loomis, Penryn, Newcastle (Community of Interest)**
- **Better Use of Major Roads and Highways for Boundaries**
- **Keeping Auburn with North Auburn**

#### **Additional Notes on the Benefits of Map P1**

Map P1 preserves the Roseville and Rocklin communities of interest. Rocklin is included in its entirety in District 3, the West Roseville community is preserved as a community of interest in District 2, Historic Roseville is preserved as a community of interest in District 1, and East Roseville preserved in District 4 with a natural border along I80. The Roseville and Rocklin areas are separated by the easily identifiable boundaries of I80 and HWY 65.

The eastern peninsula region of the county is included in the same district as well as the community of interest of Loomis, Penryn, and Newcastle. That eastern block uses easily identified boundaries including I80, Sierra College BLVD, SR 193, and Wise Road.

The City of Auburn and North Auburn are preserved as a community of interest. This is done in Map P1 by designating that part of the county as part of District 5.

To ensure the needs of rural community members are appropriately represented, the District 5 region includes additional rural communities on the Western side. District 5 uses the easily identifiable boundary of Wise Road as a border from the more southern districts.

This map meets all requirements outlined by staff and best preserves our community of interests in Placer County.

---

If Commissioners wish to make any specific adjustments to this map in order to feel comfortable selecting it, we recommend staff have this linked map (<https://bit.ly/3vm8fuE>) pulled up during the meeting which can be adjusted in real time to respond to Commissioners questions and requests. This will ensure that Commissioners can stay within their desired timeline but still make any adjustments they feel are necessary.
